Environmentally responsible actions in all areas, from production and delivery to recycling (DIN EN ISO 14001)

Social responsibility

Promotion of projects in the social, sporting, cultural and educational sectors

Certification for wooden materials

► PEFC™ since 2014

DIN CERTCO
Gesellschaft für Konformitätsbewertung mbH

CERTIFICATE

PEFC
PEFC-04-0007

Certificate Holder VS Vereinigte Spezialmöbelfabriken GmbH & Co. KG
Hochhäuser Str. 8
97941 Tauberbischofsheim
Germany

System Chain of Custody of Forest Based Products

Standard Chain of custody of forest based products - Requirements (PEFC ST 2002:2013)

Testing basis Certification scheme „Chain of Custody of Forest Based Products/ Chain of Custody“ (CoC) (2017-11)

Testing method Percentage-based Method

Scope The control system for the Chain of Custody specifies:
- the operational information system with documentation about the origin of the wood raw material from PEFC certified, sustainable managed forests
- the personnel responsible for control and implementation of the system
- the inventory control and documentation of raw material flows in order to monitor the volume of PEFC certified wood

Registration No. DC-COC-000480

Valid until 2023-08-12

Certification for wooden materials

- ▶ All the material delivered to VS are original certified
- ▶ Based on the material- and supplier „mix“, VS get the material from different systems
- ▶ The chain of custody for certified material „breaks“ at partners without an own certification system
- ▶ Problem:
 - ▶ Not possible to send out certified product under one label
 - ▶ Onproduct declaration only at demand by the customers
 - ▶ Great effort in quantity balancing for both systems

DIN ISO 38200

- ▶ Certification since 2020
- ▶ Current declaration of VS for all the products with wooden content:

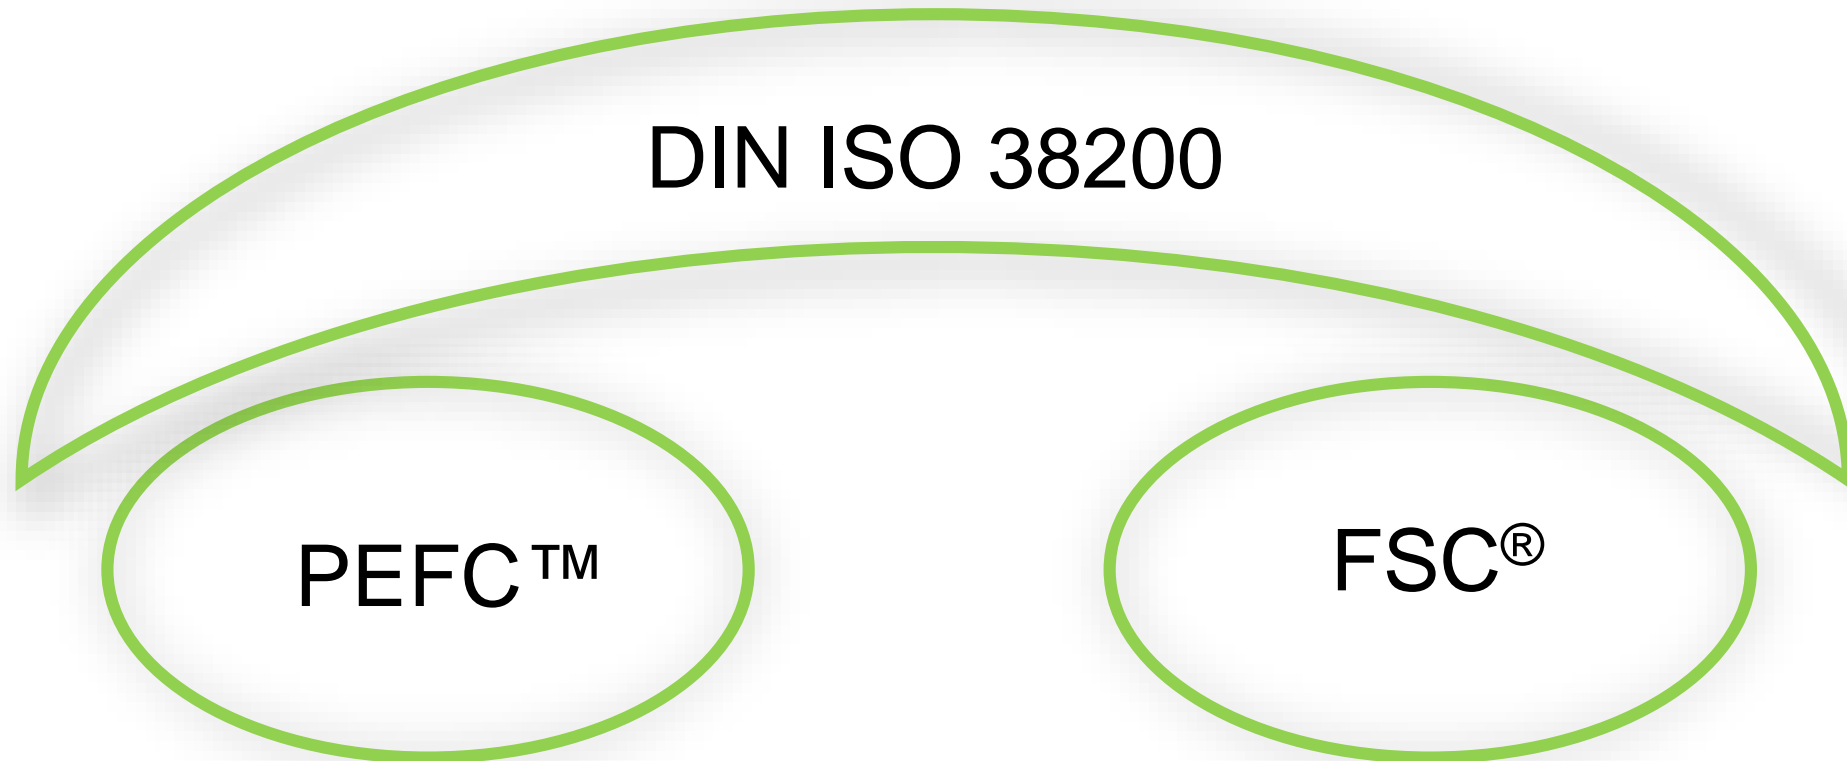

100% spezifiziert, mit Ursprung aus nachhaltiger, zertifizierter Waldbewirtschaftung; Guthaben; Bewertung durch dritte Partei; ISO 38200:2018

100% specified, originating from sustainable, certified forest management; credit system; third party evaluation; ISO 38200:2018

DIN ISO 38200

DIN ISO 38200

pro

- ▶ „Onproduct declatarion“ for all products with wooden content possible under one certification system
- ▶ easy material-balancing for only one system
- ▶ Easy implementation based on our current systems:
 - ▶ ISO 9001
 - ▶ ISO 14001
 - ▶ PEFC™/ FSC®

contra

- ▶ Acceptance and awareness level is too low
- ▶ Still requirements from customer for the labels of PEFC™/ FSC®
- ▶ No accreditation for the ISO standard by the DAKKS (German accreditation body)
- ▶ Not possible to use them for other certification systems like
 - ▶ FEMB-level
 - ▶ Various building certification-systems
 - Living building challange

Many thanks for you attantion
