

# **Auditing of new ISO 38200:2018 Effort for implementation and Synergies with other ISO Standards“**

HDH-Workshop ISO 38200,  
23.11.2021

- Short Introduction of Quality Austria as Certification body and training organisation
  - Market leader in Austria for integrated management systems
  - international network with license partners
  - Offer more than 150 different standards
- The initiator and driving force to create the ISO 38200 was the wood processing and paper industry (2018)
- The market provides three CoC product certification schemes –ISO 38200, PEFC CoC and FSC® CoC
- The ISO 38200:2018 **does not cover forest management**

# Process and timeline Accreditation

10/2018

Implementation of requirements ISO 38200 in the managements system of **qualityaustria**  
Preparation of controlled documents, training CoC auditors  
Quality Austria has appointed Lead Auditors for ISO 38200:2018

Quality Austria: **First Mover**

01.12.2021

12/2018

BENE furniture office producer  
First pilot client and implementation of ISO 38200  
BENE is ISO 9001, ISO 14001, FSC® and PEFC CoC certified

06/2021

**qualityaustria** has achieved the accreditation of ISO 38200:2018

12/2021

ISO 38200 audit at BENE furniture office producer

Change of ISO 38200 certificate to the accredited ISO 38200 certificate.

**BENE: pionier**  
Tripple CoC certification  
First mover ISO 38200

- Easy integration of the standard in an existing ISO management system
- An existing certification according to FSC® CoC and PEFC CoC is helpful for the implementation of ISO 38200 in the management system
- ISO certified client cloud use the ISO or IMS management manual for integration of the ISO 38200.

# Benefits and operating Experience

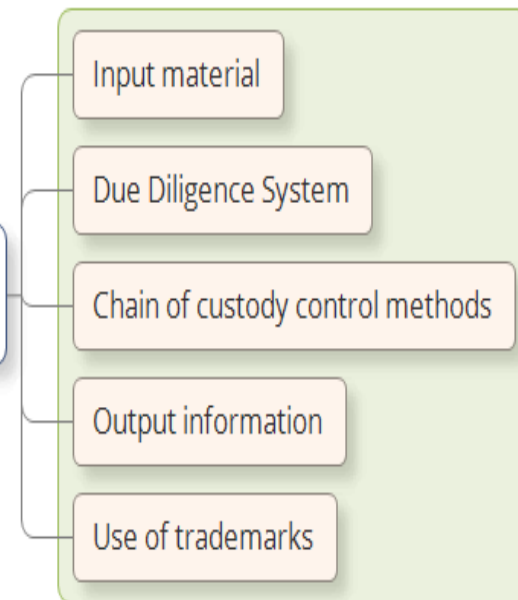

- The ISO 38200 includes elements from ISO and CoC

## Elements of ISO

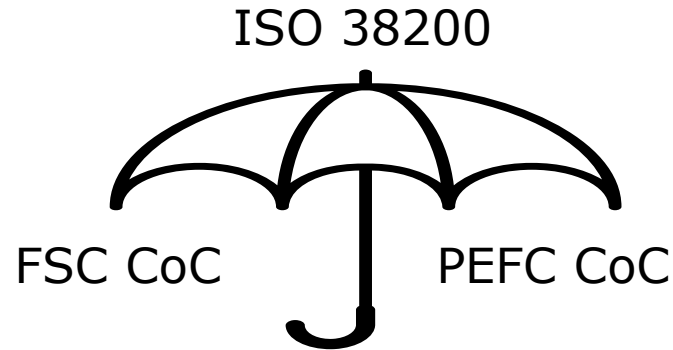

ISO 38200

## Elements of CoC

# Benefits and operating Experience

<b>Annex</b>	<b>Requirements integrable in</b>	<b>IMS / PEFC / FSC Coc</b>
A	Social welfare and employment	ISO 45001
B	Environment	ISO 14001
C	Trade and customs	PEFC / FSC CoC / EUTR
D	Internal audits	IMS (9001, 14001, 45001, ...)
E	Guidance related to legally harvested material	PEFC / FSC CoC / EUTR
F	Examples of low and high risk indicators	PEFC / FSC CoC
G	Examples of chain of custody methods	PEFC / FSC CoC
H	Examples for the category "specified material"	---

- ISO 38200 is like an umbrella under the CoC certifications
- ISO 38200 uses the synergies to FSC, PEFC and IMS (Integrated Managements System)
- Common manual = existing procedure can be supplemented with the ISO 38200 requirement.

- ISO 38200 is the **only one product certification** schemes, which verifies the total input material.
- FSC claim and PEFC claim can be consider as accepted input.
- Use of Synergies
- The next step should be, that the wood processing-, furniture- and paper industry are the joint driving force to establish the ISO 38200 in their company, that we get a broad effect.
- CoC Product certifications are also an element of contribution to the sustainability goals (Goals 15).

# Thank you for attention
